*Sonogram saves a life!*

Recently a young lady came to our  
Elizabeth office to obtain a sonogram.  
The sonographer training our nurse's  
noticed that this 21 year old girl had an  
ectopic pregnancy. Joan took the girl to  
the local hospital. The report is that the  
fallopian tube would have ruptured if this  
situation had not been noticed when it  
was. She was operated on that evening.  
Praise the Lord for His intervention!

*Sonogram changes a heart!*

*Keisha* came to our Irvington office  
undecided and depressed. She was  
referred to our Elizabeth site for a  
sonogram. Our counselor writes these  
notes: "Keisha ..(was) undecided as to  
whether or not she will keep the baby...  
went into her ultrasound looking very sad  
but came out with a big smile. She is 99%  
sure she will now carry the baby to term."

*In the first two months of the  
year 2002 Gateway has seen ..*

- 131 women taking a pregnancy test
- 8 women coming to Christ
- 6 babies known born!
